Dear Parent/carer

Re: 'Seneca'

I would like to inform you that the Maths Department have chosen to use 'Seneca', a website which can be used to revise/revisit topics that your child is learning in their Maths lessons at school.

Your child will be issued with a Seneca login and password over the next few weeks, and I would encourage you to let them use this fantastic resource at home. This will help them develop their independent study skills, and will help support the Maths work they are undertaking in lessons.

Yours faithfully

V Bridge
